

PLEASE READ BEFORE USING POOLS/SPAS

Dear Sunrise Palms Residents,

In light of the May 7th decision by the Palm Springs City Council adopting and clarifying the Riverside County guidelines for the use and operation of HOA pools and spas during the pandemic, the Board has now reopened all pools and spas for use by residents, subject to the following guidelines:

- **Six (6) feet separation between people not in the same household must be observed at all times.**
- **No large groups or pool parties. *The pools and spas are for use of Sunrise Palms residents only. No outside guests, please.***
- **Lounge chairs and/or tables should be properly distanced**
- **Residents should wear cloth face coverings when traveling on property to and from pools and spas.**
- **Disinfection plan: Residents must bring hand-sanitizer and should disinfect any and all surfaces touched each time they use the pool/spa area. Disinfect on arrival at the pool/spa and on departure.**
- **Use an EPA-approved registered household disinfectant on common surfaces, including, but not limited to, gates, latches, handrails, lounge chairs, tables.**
- **Wash hands frequently with soap and water, cover your mouth and sneeze when sneezing or coughing, and please avoid the pool area if experiencing symptoms of illness, including a fever of 100-deg.F or higher, sore throat, runny nose, chills, coughs, abdominal pains or diarrhea.**

Following these procedures would be greatly appreciated by the Board and all your neighbors here at Sunrise Palms. Thank you for doing so.

Stay safe and healthy!

Sunrise Palms Board of Directors

Effective 05/11/2020
